

FULL STACK DEVELOPER · JUNIOR

# Alberto Gálvez Aguado

Full-stack developer —from the API to the front end— with two award-winning projects and prior experience in operations and logistics. I build clear, measurable and maintainable web tools, designed around the real process of the people who use them.

## Featured projects

**Convive** [↗](#) **AIRCURY SUMMER OF CODE · €3,000 GRANT**

Open-source platform for secure communication and case management in schools. End-to-end design with an OpenAPI contract, automated tests and CI.

[Angular](#) · [TypeScript](#) · [Symfony](#) · [PHP](#) · [PostgreSQL](#) · [Docker](#) · [OpenAPI](#)

**Echo2Action** [↗](#) **SIDN GEN AI ARENA · WINNER** TEAM PROJECT

Generative AI that turns public reviews of physical stores into prioritized problems and concrete actions for marketing, support and operations.

[Next.js](#) · [React](#) · [TypeScript](#) · [FastAPI](#) · [Python](#) · [Vertex AI](#) · [Gemini](#)

**Guías Caninas** [↗](#)

Dog-care editorial platform in production. Headless CMS, in-house tools and a pipeline that requires sources and traceability before publishing.

[Astro](#) · [Payload CMS](#) · [TypeScript](#) · [PostgreSQL](#) · [Docker](#)

**Servicios GRX** [↗](#)

Curated directory of verified professionals in Granada: 76 pros, 12 categories, 11 guides and a local SEO strategy.

[WordPress](#) · [PHP](#) · [MySQL](#) · [Custom theme](#)

## Professional experience

FROM OPERATIONS TO WEB DEVELOPMENT

**Sempatiza · Web Development & SEO**

Apr. 2026 - Aug. 2026

Web development on live production sites: WordPress/Gutenberg, layout and migrations, performance (Core Web Vitals) and technical SEO.

**Silicoderm Cosmetics · Logistics Supervisor**

May 2024 - Dec. 2025

Day-to-day ERP/WMS, stock and traceability management. Incident resolution, workflow improvements and decision-support reporting.

**Telepizza · Store Management & Operations**

Aug. 2021 - Aug. 2025

Progressed to leading an 11-person team and running full shifts: demand planning, quality control and customer service.

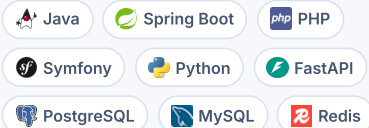

**A Forged Tool · Warehouse Operator**

Aug. 2020 - Apr. 2024

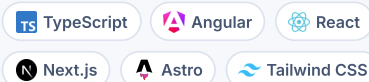

Inventory, order picking and warehouse-flow control in an industrial setting using ERP and handheld devices.

## Tech stack

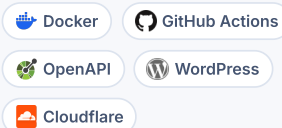

BACKEND & DATA

FRONTEND & WEB

PRODUCT & DELIVERY

## Education

**Multi-platform & Web Application Development (DAM + DAW)**

Instituto FOC · 2025 - 2027 · ongoing

**Business Administration + Law**

University of Granada · 2017 - 2021 · 4 years completed

**Baccalaureate · Social Sciences**

IES Manuel de Falla · 2015 - 2017

## Certifications

- AWS Certified Cloud Practitioner · 2026
- Linux Essentials — Linux Professional Institute (LPI) · 2026

## Transferable skills

- I translate operational needs into clear, prioritized requirements.
- I read real processes (ERP/WMS, ticketing) and propose data-backed improvements.
- End-to-end ownership: from problem to deployment.
- Documentation and traceability of decisions and incidents.

## Languages

- Spanish · native
- English · working proficiency (B1) · fluent technical reading
